

# EULAR/ACR criteria for SLE

Please fill in the individual criteria.  
The total score will be calculated automatically.

## Entry criterion

Antinuclear antibodies (ANA) at a titre of  $\geq 1:80$  on HEp-2 cells or an equivalent positive test (ever)

- Yes  
 No

## Additive criteria - Clinical domains

**Do not count a criterion if there is a more likely explanation than SLE. Occurrence of a criterion on at least one occasion is sufficient.**

**SLE classification requires at least one clinical criterion and 10 points. Criteria do not need to occur simultaneously.**

Constitutional

- Fever (2 points)

Haematological

- Leukopenia (3 points)  
 Thrombocytopenia (4 points)  
 Autoimmune haemolysis (4 points)

Neuropsychiatric

- Delirium (2 points)  
 Psychosis (3 points)  
 Seizure (5 points)

Mucocutaneous

- Non-scarring alopecia (2 points)  
 Oral ulcers (2 points)  
 Subacute cutaneous or discoid lupus (4 points)  
 Acute cutaneous lupus (6 points)

Serosal

- Pleural or pericardial effusion (5 points)  
 Acute pericarditis (6 points)

Musculoskeletal

- Joint involvement (6 points)

Renal

- Proteinuria  $> 0.5$  g/24 hours (4 points)  
 Renal biopsy-proven class II or V lupus nephritis (8 points)  
 Renal biopsy-proven class III or IV lupus nephritis (10 points)

### Additive criteria - Immunological domains

**Do not count a criterion if there is a more likely explanation than SLE. Occurrence of a criterion on at least one occasion is sufficient.**

**SLE classification requires at least one clinical criterion and 10 points. Criteria do not need to occur simultaneously.**

Antiphospholipid antibodies

Fill in all that apply.

The maximum score for this domain will not exceed 2 in the computational part.

- Anticardiolipin antibodies (2 points)  
 Anti-β<sub>2</sub>-glycoprotein I antibodies (2 points)  
 Lupus anticoagulant (2 points)

Complement proteins

- Low C3 or low C4 (3 points)  
 Low C3 and low C4 (4 points)

SLE-specific autoantibodies

Fill in all that apply.

The maximum score for this domain will not exceed 6 in the computational part.

- Anti-dsDNA antibody (6 points)  
 Anti-Sm antibody (6 points)

### Total score and outcome
